IMMUNIZATION POLICY

It is the policy of ONU that all students born on or after January 1, 1957, and enrolled in 6 or more hours of on campus classes must show proof of:

1. Tetanus and Diptheria - booster within the last 10 years. (T.T.- tetanus toxoid is not acceptable)
2. Measles (Rubeola) – Must show proof of TWO doses after 12 months of age
3. Rubella (German Measles) – One does required after 12 months of age
4. Mumps – One dose required after 12 months of age

   *International students must also show proof of 3 doses of any combination of Diphtheria, Tetanus and Pertussis vaccination.

*Laboratory evidence of immunity for measles, mumps and rubella is acceptable if accompanied by the lab report.

*Physician documentation of disease with date and physician signature will be accepted for mumps and measles only.

These are consistent with the State of Illinois College Student Immunization Act (110-ILCS 20)

Some exemptions might include:

1. A letter from a medical doctor or registered nurse stating medical reasons the student should not or need not receive the vaccine.
2. A statement from student (if over 18) or from parents (if under 18) regarding personal beliefs that prevent vaccination.
3. Temporarily excused if pregnant.
