

Enrollment Step 6: Upload Your Medical Records – FAQ

1. Can I just email my records to my Admissions Counselor?

No, although it may seem simpler to do so, ONU cannot receive immunization records directly from students. You must make an account and upload all requested records to MedProctor.

2. Will it cost me anything to use MedProctor?

Yes, MedProctor charges a \$10 fee to process and store your records. Make sure to keep your login information because you can access the account for life should you want a copy of those records in the future.

3. Does Olivet require a physical?

Physicals aren't required unless you're participating in **collegiate athletics** or **ROTC**. If that's you, check with your coach or ROTC recruiter about physical requirements.

4. I will be filling out the religious exemption form. Where do I submit it?

Upon filling out the religious exception form, you must upload it to your MedProctor account.
