

Olivet Connect

Why should I join Olivet Connect?

Olivet Connect is a platform built to connect the Olivet community: **faculty, staff, students, alumni and parents**, generating interactions, conversations, mentorships, and engagement between Olivetians.

What are some Olivet Connect features?

Groups, Networking Opportunities, and Community Job Boards and Newsfeed

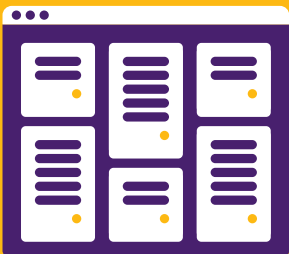

Newsfeed - similar to **Facebook, LinkedIn, and X**, this feed is where users will see content posted from any user. This is a great place to **promote** upcoming events, **introduce** yourself and **make connections** or simply **share** your love for Olivet.

Job Board - similar to **LinkedIn**, this feature showcases different jobs throughout the nation that Olivet Connect users post. With the ability to see who posted it, this Job Board is a great tool to **network** with possible future coworkers and companies!

Groups - similar to **Facebook Groups**, these private channels are **academic-based** and **location-based** creating the ideal landing page for users with similarities to easily connect, **reminisce** and **plan** for future events!
