As an RN-BSN student, you will be empowered with knowledge and skills to care for diverse populations across the lifespan with compassion, integrity, and excellence. You will be equipped to expand your sphere of influence in the complex health environment.

The RN-BSN program integrates your previous nursing experience and knowledge, while helping you advance your personal, professional, and educational goals. Olivet offers a direct entry pathway into the MSN/FNP program through the last two courses of the track. By completing these courses, you will be two courses ahead when entering Olivet's MSN/FNP program.

WHY OLIVET?

Olivet's affordable graduate and continuing education degree programs help you think differently, respond differently, lead differently. The curriculum, instruction and delivery methods are designed with you in mind as you seek purpose and meaning in your career and calling.
