Upload Your Immunization Records - FAQ

- **Can I just email my records to my Admissions Counselor?**

  No, although it may seem simpler to do so, ONU cannot receive immunization records directly from students. You must make an account and upload all requested records to MedProctor.

- **Will it cost me anything to use MedProctor?**

  Yes, MedProctor charges a $10 fee to process and store your records. Make sure to keep your login information because you can access the account for life should you want a copy of those records in the future.

- **Does Olivet require a physical?**
  Physicals aren't required unless you're participating in collegiate athletics. If that's you, check with your coach about NAIA physical requirements.

- **I will be filling out the religious exemption form. Where do I submit it?**
  Upon filling out the religious exception form, you must upload it to your MedProctor account.
